

**Adauju Molokwu for
Member of the SYP**

Why her? Why now?

Because...

- **History** - German Nigerian, moved here 2019
- **Personality** - Confident but quiet and a little impatient
- **Ambition and Motivation** - my motivation comes from wanting to learn more, and my ambition is to be a human rights consultant who helps understand people who aren't listened to.
- **Present to Future** - Making sure that young people aren't left behind in the past, and making sure they are asked what they want for the future.

My aims and goals

**“Education for everyone, everywhere, in anyway,
about anything”**

Anti - Discrimination education Breaking Barriers

- Highlighting alternative education
- Helping others understand alternative education
- Showcasing and teaching young people there is more ways than one to be educated and alternative education isn't something that should have stigma attached to it, since traditional and linear ways aren't always the best, just the most well known.

Thank you
