- Environment

Why Do I Want To Run?

I am standing to be an MSYP because as a neurodivergent young person, I have faced and overcome many challenges in my life and want to help other neurodivergent youths get over the same barriers. If I were to get elected, I could represent and be a voice for neurodivergent youth. I would also try to get places where young people can socialise in the Glasgow Anniesland constituency. Furthermore, I will prioritise the improvement of our environment in order to keep it a clean and healthy place for everyone.

What Will I Do As An MSYP?

As an MSYP I hope to ensure that young neurodivergent people's voices are heard, and they get the support they need so that we can make their lives less challenging. A support measure that I feel would be beneficial to people, particularly while at school, is a quiet space where they can go to decompress and reduce pressure placed on them. In addition, I will push for designated areas where young people can go to socialise, as there is a lack of leisure activities within the Glasgow Anniesland constituency. Moreover, I genuinely believe that our environment must be a key focus and one that I will take seriously, organising youth led events to manage the environment in the constituency, such as litter picks and more recycling bins to reduce litter on our streets.

Why Should You Vote For Me?

If you want neurodivergent young people's voices to be heard and considered, then vote for me as I can use my own experiences to help others combat the challenges I have faced. If you want to help protect the environment and see progression with the state of the planet then vote for me and you will see progression with the way the environment is managed in the Glasgow Anniesland constituency.
